Agratas energiespeicherlösungen

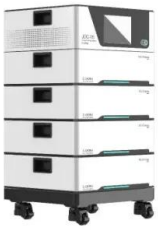

Überblick

Agratas (Agratas Energy Storage Solutions Private Limited) is designing batteries that power more than mobility – they power lives. Leveraging Tata Technologies' over 25 years of expertise in product development, digital engineering, digital manufacturing and product supply chain, Agratas will accelerate its product development timelines, including integrating battery cells into modules and packs across multiple applications. AESC Group Ltd, a Yokohama-based battery manufacturer owned by Chinese energy technology company Envision, has acquired a 12% stake in Agratas Energy Storage Solutions Pvt. Committed to sustainability and net-zero goals, Agratas utilizes advanced cell chemistry, rapid charging, and circular manufacturing processes, with production launching in the.
