SWISS SOLAR Pro.

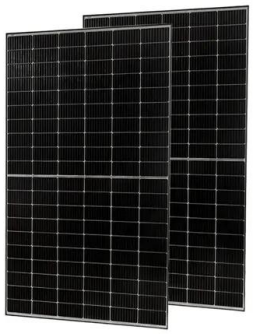

Angola solarkontainer-ausstellungsplan

Überblick

This project is the centerpiece of Angola’s efforts to replace thermal power stations, displace expensive diesel usage from generators, and reduce pollution. Angola has set a target of 60% access to electricity by 2025 under the strategic plan ‘Visao 2025,’ of which solar is poised to play a central role. Supporting electrification as well as diversification, solar projects are being rolled out by the government alongside international partners and. That said, experts warn that private investment is urgently needed for the country to.
