BXC Solar Power Station

BXC Solar Power Station, also Onyandze Solar Power Station, is an operational 20 megawatt solar power plant in Ghana. The solar farm was developed, financed and is owned and operated by Beijing Xiaocheng Company, a Chinese independent power producer (IPP). The power station, commercially commissioned in April 2016, was the largest grid-ready IPP solar farm in Ghana, at that time. The energy generated at this power station is evacuated via a high voltage transmission line to a substation at Winneba Roundabout

Chinese tech firm leads Ghana's solar energy breakthrough

A leading Chinese technology innovations company, Beijing Xiaocheng Company (BXC), is providing Ghana with its first large-scale solar plant to support the country's power generation.

Top five solar PV plants in operation in Ghana

Listed below are the five largest active solar PV power plants by capacity in Ghana, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to
