China southern power grid investiert in solarkontainerprojekte

Überblick

According to the disclosure in the table, the company's 2024 budget has a fixed asset investment plan of 8 billion yuan, mainly invested in distributed new energy such as distributed photovoltaics, distributed wind power, and new business areas such as energy conservation. A carbon reduction demonstration project integrating solar power generation with power storage and charging recently broke ground. Jointly developed by China National Offshore Oil Corporation (CNOOC) and China Southern Power Grid (CSG), it is expected to be the largest parking shed distribution. The total installed capacity of new energy across Guangdong Province, Guangxi Zhuang Autonomous Region, Yunnan Province, Guizhou Province, and Hainan Province had exceeded 200 million kilowatts as of February 10, four times that of the end of 2020. Hybrid Storage Systems Combining lithium batteries with flow batteries creates solutions that handle both rapid response and long-duration needs. ("CSG Energy Storage Technology") and NIO Energy Investment (Hubei) Co.
