SWISS SOLAR Pro.

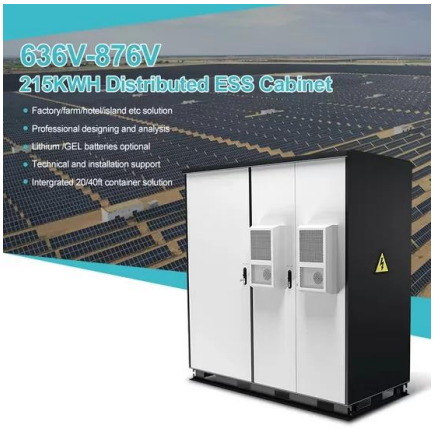

Doha mobile solar container equipment company factory operation

Überblick

We produced one 20ft mobile solar container configured for on-grid operation and factory-tested it before shipment. Manufacturing lead time was 40 days; transport to the customer site took 35 days. To be referred as the most favorable company in the electrical, mechanical and hardware trading industry. This landmark initiative will see GWC work with Yellow Door Energy, a leading sustainable energy partner for businesses in the Middle East and Africa, to develop solar power plants across three strategic logistics hubs in the region: Logistics Village Qatar, Bu Sulba Warehousing Park and Al Wukair. With Qatar aiming to generate 20% of its electricity from renewables by 2030, modular photovoltaic containers offer: "Like building blocks for solar farms, these containers enable plug-and-play energy solutions across Doha's urban and remote areas. A mobile solar container is a portable, self-contained system that houses solar power equipment, designed to be transported easily and installed swiftly to provide electricity where it''s Industrial Equipment & Services Co.

Doha mobile solar container equipment company factory operation
