## Überblick

Enerflo is the all-in-one operations platform for residential solar companies, helping Sales Dealers, Master Dealers, Installers, EPCs, and Hybrid/Vertically Integrated companies streamline sales, installation, financing, and customer communication. With the most integrations in the industry, Enerflo seamlessly combines the tools and apps our customers already know and love with our homegrown, industry-leading technology into a single, unified platform with indispensable features only Enerflo. It is designed to help companies reduce time to close, project duration and soft costs. Pylon is the only solar design software to give you high-resolution imagery in-app with no monthly fees. Identify dates of concern and track shading impact throughout the year using Pylon's award-winning 3D Solar Shading toolkit.
