Guoxuan lithium-batterie-energiespeicherprojekt

Guoxuan lithium-batterie-energiespeicherprojekt

Guoxuan High-tech: Plans to invest no more than 4 billion yuan to

On September 1, Guoxuan High-tech announced that it plans to invest in the construction of a new lithium-ion battery (20GWh) intelligent manufacturing base project in Nanjing Liuhe Economic

Guoxuan Hi-Tech 'hands in' BOSCH to supply lithium-ion batteries for it

Guoxuan Hi-Tech, as a representative of lithium iron phosphate battery companies, is also actively promoting the application of lithium iron phosphate batteries in the passenger car field,

Shanghai Electric Guoxuan New Energy Technology Co.ltd

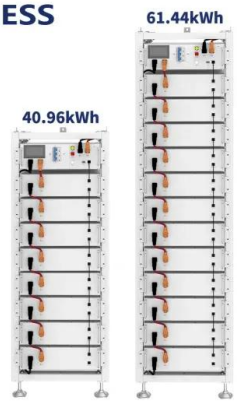

Lithium iron phosphate battery cell;Cycle life > 5000 times;Can be widely used in power generation side, grid side, user side, backup power and new energy automobile field.

Guoxuan Hi-Tech invests another 11.5 billion to build a power battery

Recently, Guoxuan Hi-Tech issued two announcements stating that it plans to build new power battery projects in Hefei, Anhui and

Liuzhou, Guangxi, with a total investment of 11.5 billion yuan.

Das Guoxuan Yichun-Projekt plant, jährlich 20 Millionen Tonnen

Next:Le projet Guoxuan Yichun prévoit de produire 20 millions de tonnes de concentré de mica, 120 000 tonnes de carbonate de lithium et 30 GWh de batteries électriques par an.

Guoxuan High-Tech's 5 Billion Yuan Gamble: Betting Big to Stay in

The funds are earmarked for three major projects: an annual 20GWh power battery project, a 20GWh new energy battery base, and a new-type lithium-ion battery intelligent

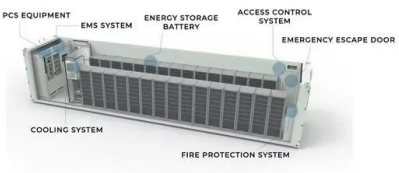

Guoxuan's massive effort to increase upstream materials and battery

According to incomplete statistics from Gaogong Lithium, Guoxuan Hi-Tech has successively invested in the recycling of upstream raw materials such as positive electrode, negative

Guoxuan's massive effort to increase upstream materials and battery

On March 10, Guoxuan Hi-Tech announced that through its subsidiary Hefei Guoxuan invested 100 million yuan to establish two grandson companies, namely Guoxuan Cycle, a lithium

Guoxuan explores the application of blockchain technology for power

Next, Guoxuan will closely integrate with upstream and downstream companies, innovate battery recycling business models, build a complete system from echelon utilization to resource

Guoxuan Hi-Tech 1 billion sets up two new subsidiaries to accelerate

[Guoxuan Hi-Tech 1 billion set up two new subsidiaries to accelerate the layout of lithium power industry chain] recently, Guoxuan Hi-Tech has completed the industrial and commercial
