SWISS SOLAR Pro.

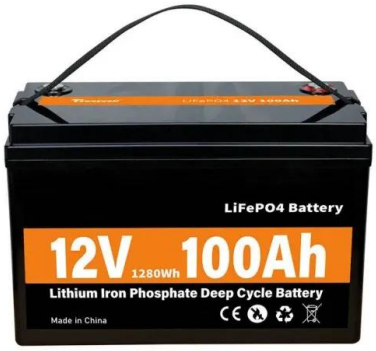

Hargeisa intelligenter solarkont ainer-schrankhersteller

Überblick

Wir haben zwei verschiedene containerisierte Systeme entwickelt: unseren mobilen Solartainer Amali und unseren skalierbaren Solartainer Kani. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. After completing the Intelligent Container project, IMSAS and ATB carried out several follow-up projects for improving the transport and storage conditions of fresh fruits and vegetables. These 20/40-foot units combine solar panels, battery storage, and smart controls – think of them as “energy Lego blocks” for quick deployment. Real-World Example: A Hargeisa hospital reduced its energy costs by 72% after installing a 200kW solar-diesel hybrid container system.
