SWISS SOLAR Pro.

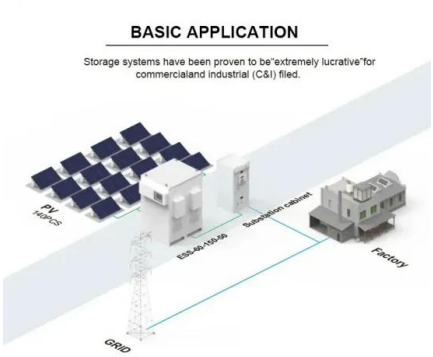

Irak druckluft-solarkontainerkraftwerk

Überblick

Iraq is set to open its first industrial-scale solar plant in a vast desert area in Karbala as the government attempts to tackle an electricity crisis that has led to widespread blackouts. Authorities said the plant, the largest of its kind in Iraq, will be inaugurated on Sunday to eventually. The Iraqi Oil Ministry's Undersecretary for Distribution Affairs, Ali Maarij, has said that Iraq aims to incorporate 12 Gigawatts (GW) of solar power into its energy mix by 2030, alongside intensified efforts to capture natural gas and reduce flaring. This would help meet the country’s growing energy needs, espe-cially at a time when the impacts of climate ch nge are becoming. The government set a goal to reduce the current dependence on fossil fuels and to reach a share of 10 percent of renewable energies by 2028. Shafaq News/ Iraqi government intends to establish the country's largest electricity generation plant using solar energy, Deputy Prime Minister for Energy Affairs and Oil Minister Hayan Abdul Ghani Al-Sawad said on Friday.
