SWISS SOLAR Pro.

Ja solar-pv-panel-controller

Überblick

5-hectare agrivoltaic plant in Bruck an der Leitha, Austria, uses “sun catchers” to maximise energy yield and optimise grid stability. The system consists of movable PV modules that track the sun and thus optimise electricity production. With our broad product portfolio, we offer sustainable and innovative solutions for residential, commercial and utility projects. This manual contains important safety instructions for the Solar Photovoltaic Modules (hereafter referred to as “Modules”) of JA Solar Holdings Co. Modules rated for use in this application class may be used in system operating at greater than 50V DC or 240W, where general contact access is anticipated.
