Überblick

The Muscat Energy Storage Pilot Document ticks all boxes—it’s technical enough for engineers but packed with juicy stats for investors. Plus, who can resist a story about outsmarting sandstorms?

Described as Zambia's inaugural solar facility equipped with battery storage, the project holds an estimated value of $65 million. It is slated to commence commercial operations by September 2025, aiming to supply electricity to a minimum of 65,000 households. It will be located alongside the existing 500 MW Ibri II solar project, which was inaugurated in January 2022 after a 13-month construction. Nama Power and Water Procurement (PWP) signed the agreement with the consortium of Abu Dhabi Future Energy Company – Masdar, Al Khadra Partners, Korea. The Ibri III Solar Independent Power Project will combine a 500MW photovoltaic plant.
