OverviewHistoryMoixa Smart BatteryGridShare SoftwarePrevious productsAwards

Moixa is a British cleantech company that develops software and hardware to optimise use

of renewable energy. They produce smart batteries that are paired with residential solar panels. The company also designs "GridShare" Software which optimises battery systems, and can also be used to create virtual power plants (VPP) with other batteries, as in the work they do in Japan with ITOCHU. GridShare Software can als
