SWISS SOLAR Pro.

Phd in solarkontainerkeramik

Überblick

SHINE will investigate the hydrogen/rock/pore fluid processes with the aim to assess the feasibility of subsurface hydrogen storage technologies within porous reservoirs, through 10 cutting edge research and training projects at doctoral level spanning from microbiology to. We are a young and dynamic research group continuously looking for highly motivated and innovative individuals interested in PhD / Master / Semester projects. Backgrounds in Materials Science, Chemical Engineering, Bioengineering, Pharmacy, Process Engineering or similar areas are preferred. The Max Planck Institute for Solar System Research (MPS) in Göttingen conducts fundamental research in the field of solar system physics. 5-year UK PhD studentship is available at the University of Birmingham with a tax-free stipend. Metal halide perovskites are redefining the limits of optoelectronic performance, particularly in next-generation photovoltaics.

Phd in solarkontainerkeramik

PhD Research

PhD Research The 3-year PhD in partnership with companies is a real professional experience. The doctoral student's funding is a necessary condition for enrollment. Different types of contracts can be

Joint Doctor of Philosophy (PhD) in Integrated Management of Water

You are interested in studying "Joint Doctor of Philosophy (PhD) in Integrated Management of Water, Soil and Waste" at Dresden University of Technology in Germany? Find all relevant information here!

Advanced Ceramics

We are a young and dynamic research group continuously looking for highly motivated and innovative individuals interested in PhD / Master / Semester projects. Backgrounds in Materials Science,

Ugur Research Lab , PhD Position (m/f/d)

Open for applications as of March 2, 2026 We invite applications from motivated and talented candidates for a fully funded PhD position in the field of perovskite semiconductor research. Metal

Ph.D. Position on Data-driven Modeling of Materials and

The Professorship of Data-driven Materials Modeling (formerly Continuum Mechanics) is part of Department of Engineering Physics and Computation in the School of Engineering and Design at the

Open Seven PhD Positions in the Field of Green Transition in Europe

We are pleased to announce seven PhD positions in various European institutions focusing on green transition and sustainability, which are currently available at the Job and

Open Positions

2D-MATURE invites applications for 24 positions for PhD candidates (m/f/d) in the research areas of synthesis and processing of scalable 2D materials; analysis and modeling of their functionality in

119 phd-in-ceramic positions , scholarshipdb

Research theme: Fusion Engineering This 4 year PhD project is fully funded and home students, and EU students with settled status, are eligible to apply. The successful candidate will received. A 3.5-year

Kompetenz in Keramik

Das Fraunhofer-Institut für Keramische Technologien und Systeme IKTS betreibt anwendungsorientierte Forschung für Hochleistungskeramik. Die drei Institutsteile in Dresden und Hermsdorf (Thüringen)

Doctoral studies

The most important part of a PhD is a research project at the forefront of science under the direct supervision of a professor or research group leader. In addition, PhD students appoint a "Thesis
