Tianneng microgrid power

Überblick

Tianneng Group provides energy storage batteries featuring cutting-edge smart microgrid battery storage systems designed to deliver reliable, scalable energy storage solutions for diverse applications. As a top battery energy storage system manufacturer, our home energy storage battery uses stored energy to power your home during power outages. The TBL series, designed with systematical high-efficiency, is a solution for ON/OFF-Grid Energy Storage System, in which all the subsystems, like photovoltaic unit, monitor unit, energy storage. The smart microgrid energy system solution of Tianneng Group is suitable for large parks, power grid frequency modulation, industrial and mining enterprises, islands, scenic spots, and remote areas where the large power grid is difficult to extend. Renewable energy is the future of energy generation and utilization, the only problem we need to solve is how to control it at our best convenience; Tianneng Battery is committed to being global tier 1 battery energy storage system solution (BESS) provider to handle the problem of storage.
