SWISS SOLAR Pro.

Wie viel kostet solaraid in sambia

Überblick

(Annual incomes in Solar Aid’s working regions are $1070 in Zambia, $820 in Kenya, $530 in Tanzania and $340 in Malawi, according to UNICEF’s 2011 data.) By contrast, SolarAid says, its solar lamps cost as little as $10, pay for themselves after 12 weeks and last for five years. To activate the calculator please input an amount in increments of £15, which equals one solar light distributed. Yesterday Google unveiled the winners of its Global Impact Challenge, in which four UK-based non-profits each received £500,000 (US$766,000) for their work in “using tech to tackle the world’s toughest problems”. In line with the Sustainable Development Goal 7: "Ensure access to affordable, reliable, sustainable and modern energy for all", the organisation's aim is to reduce global. The charity aims to promote a market for solar lighting equipment, to bring safe light to people without access to electricity in Africa.
