SWISS SOLAR Pro.

Windkrafterzeugung der yellow river company

Überblick

SSE Renewables has strengthened its onshore wind presence in Ireland with the completion of the Yellow River Wind Farm in County Offaly — a 101MW, 29-turbine project that is now generating clean electricity for Irish homes and businesses from the heart of the Midlands. Yellow River Wind Farm is a 29-turbine wind farm in County Offaly in Ireland’s Midlands with an installed capacity of 101MW. We began construction on the wind farm in October 2022 and completed the project in 2025.
