SWISS SOLAR Pro.

Zimbabwe großflächiges zentrales solarkontainerkraftwerk

Überblick

Zimbabwe is set to begin construction of a landmark 600 MW floating solar power plant on Lake Kariba in 2026, a major move to enhance its energy resilience, diversify from hydropower, and tackle persistent power shortages. The initial stage of the 600-megawatt project will be built on land adjacent to the lake. CHINA Energy Engineering Group has tabled a proposal to build a 1 000 megawatt floating solar farm on Lake Kariba at an estimated cost of nearly US$1 billion.
